LUXURY CUSTOM SPRINTER VANS

PLUG IN | BUSINESS CLASS

Climb aboard our flagship model, and it's as if you've entered the cabin of a private jet. Whether you're commuting between regional offices, entertaining customers, tailgating with friends or traveling with family, our Mercedes Sprinter luxury van conversions are designed to meet the demands of executive lifestyles.

Fingertip access to satellite TV, Wi-Fi, iPad® pods and a premium sound system keeps your productivity in high gear on the road. Sumptuous leather reclining chairs, exquisite wood tables, custom carpeting and dozens of other customizable features allow you to relax and travel in uncompromised comfort.

GET AWAY | WEEKENDER RV

Ready to feed your wanderlust a gourmet meal of luxury and versatility? Our Weekender conversion luxury van offers the best of both worlds – the utility of an RV crafted with the luxury of our Business Class Sprinter.

Exquisite high-end trim finishes are combined with modern conveniences like a larger refrigerator, microwave oven, galley, rear head and more. There's plenty of tech onboard (wide screen TVs, Wi-Fi, premium audio), and plenty of seating options for socializing and relaxing. An extensive array of customization options lets you include all of the amenities you need for traveling in style.

MERCEDES ENGINEERING

Your luxury van conversion starts with the legendary quality, performance and engineering of the Mercedes-Benz Sprinter – the most advanced commercial van on the road today.

A spirited V6 turbo diesel engine with BlueTEC clean-diesel technology powers an optional new 4x4 drivetrain with on-demand all-wheel drive. Safety innovations like Acceleration Skid Control, which offers reassuring stopping power and handling stability, are enhanced with a new Crosswind Assist feature that helps keep your van under tight control at highway speeds.

Choose from three wheelbase lengths, two roof heights and a range of colors. Of course, the real payoff is inside, where our specialization in Mercedes-Benz translates cavernous interior space, tall standing height and class-leading payload capacities into luxurious space with all the room you need to succeed and entertain.

Visit mwautodesigns.com to view photo galleries for all of our Sprinter models.

ENTERTAIN WHAT'S POSSIBLE

Our luxury conversion vans bear little resemblance to any van you've ever seen. They're a remarkable blend of technology and handcrafted luxury that feels like a private jet with wheels instead of wings. Step inside, and you're immersed in first-class amenities offering the perfect escape from what's outside. And the perfect escape to...wherever.

To the designers, craftsmen and technical wizards of Midwest Automotive Designs, anything's possible. Imagine a business command center that doubles as a plush social gathering space for family and friends. Think of the jaws that will drop at tailgate parties when you swing open the rear doors to reveal a wide-screen HDTV and custom sound system.

With a Mercedes Sprinter van converted to your specifications, and crafted to our high standards, you'll make the most of every hour. Every day. And every memorable weekend.
